Bachelor of Computer Applications (BCA),   08/2022 – 05/2025
Regal College of Technology & Management ⬀   Kalyan, MH

WORK EXPERIENCE

Data Analyst Intern, *Ai Variant* ⬀   04/2025 – 10/2025
                                                                      Bangalore (Remote)
- Worked on Zomato & DBS Bank datasets using SQL, Excel, Tableau & Power BI to Bangalore (Remote) perform data cleaning, EDA, KPI Tracking, & dashboard development.
- Enhanced data visualization capabilities for better decision-making with the use of advanced BI tools.
- Built interactive dashboards highlighting key metrics such as Daily Sales, Avg. Delivery Time, Repeat Orders, Loan Status Trends, and Customer Profitability.

SKILLS

- Data-driven insights
- Statistical modeling
- Tableau data visualization skills
- Data manipulation with SQL
- Insightful analysis
- Strong communication skills
- Streamlit interactive dashboard building

- Proficient in Python programming
- Power BI data visualization skills
- Proficient in data analysis using Excel
- Visual communication skills
- Engaging storytelling
- Effective team collaboration
- Team Work Ability

PROJECTS

Zomato Data Analytics ⬈
- Mid-priced restaurants showed higher average ratings, and customer votes had a strong positive correlation with ratings.
- Restaurants offering online delivery and located in high-density areas demonstrated greater customer engagement and popularity.

DBS Bank Data Analytics ⬈
- Analyzed large-scale banking transaction data using SQL and Python to identify customer spending patterns, detect anomalies, and improve decision-making insights.
- Built interactive Power BI, Tableau, Excel, & Streamlit live dashboards to visualize KPIs such as loan performance, customer segmentation, and monthly revenue trends.

COVID vs NIPAH Virus Comparative Analysis ⬈
- COVID-19 showed significantly higher transmission and case counts, while Nipah virus exhibited lower spread but a much higher fatality rate, highlighting contrasting outbreak patterns.
- Comparative analysis revealed COVID-19's wide geographic impact versus Nipah's localized outbreaks, emphasizing the need for different public health response strategies.

Customer Shopping Behavior Analysis ⬈
- Identified major purchase behavior trends — such as which customer segments (e.g., new vs returning) contribute most to sales and how average purchase value varies across demographic groups, enabling targeted marketing and retention strategies.
- Uncovered top-performing products and revenue drivers by analyzing product categories, spending patterns, and shopping preferences, providing actionable insights for inventory planning and personalized promotions.
